All data are digitized. Time step of the data: three terms per day, with exceptions: extreme air temperature, precipitation and sunshine duration - only once per day. There could be some smaller gaps with no data, because there were no observations

\* Data for the period 1850-03-23 - 1853-01-01 are rescued and digitized in small fragments

\*\* Data for the period 1913-01-01 - 1925-01-01 are still in paper form

\*\*\* Data for the period 1925-02-01 - 1938-01-01 are still in paper form
